Smart Slide Single and Full Extension Options

Smart Slide Drawer Systems meet expectations for advanced design creation with full and single extension options, which are developed with the purpose of meeting various design needs..

How many different ways could there be to open a Smart Slide drawer ?

Soft - Close Version

Adapting soft close mechanism Smart Slide Drawer Systems, developed with cutting-edge technology, provide drawers with a very smooth opening and closing feature.

Push - Open Version

Smart Slide Drawer Systems "Push Open" function simplifies the use of non-handle drawers with a single touch movement.

Soft-Close Push-Open Version

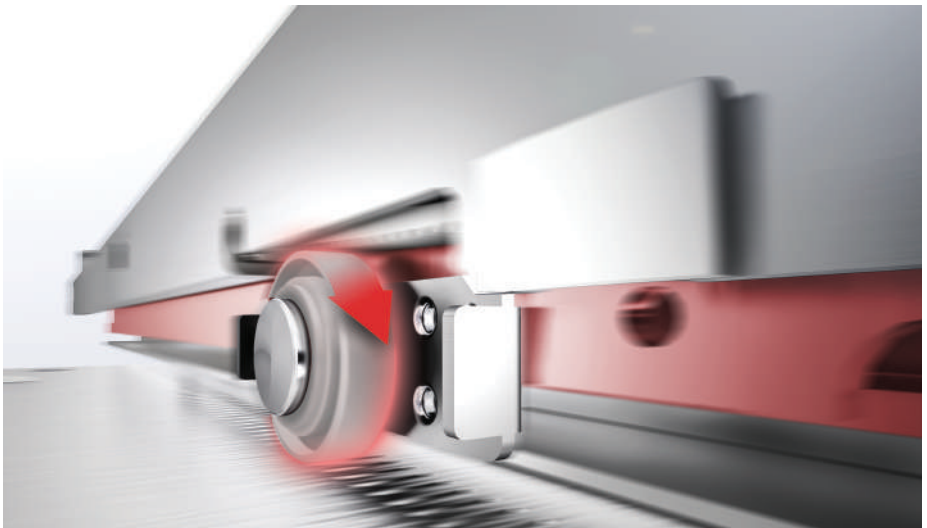

Now the Smart Slide generation is integrated into the Soft-Close and Push-Open system at the same time. With this feature the drawer is upgraded to a very high quality and sophisticated design for the interior design world.

Smooth and Silent Movement

The state-of-the-art technology used in Smart Slide Drawer Systems adds elegance to opening and closing drawer features. Perfection of its technology ensures silent and smooth motion.

Due to the synchronization system used in Smart Slide drawers, the drawers will move smoothly and quietly.

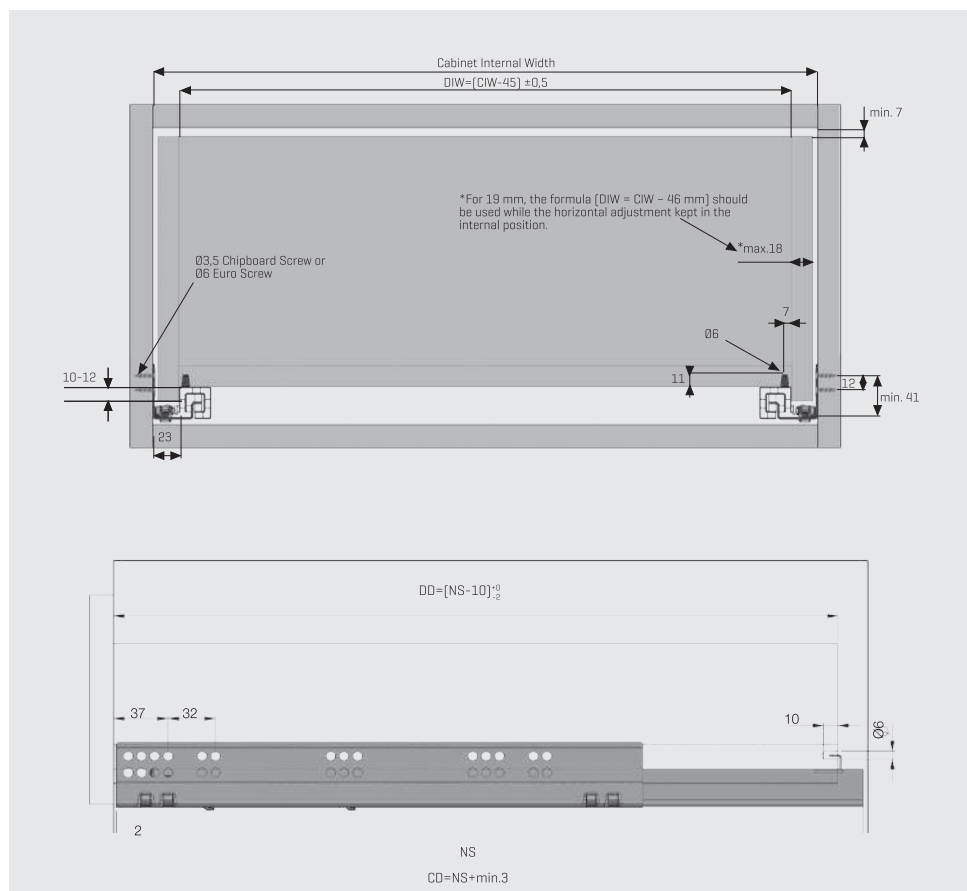

Lock-Fix and Pin-Fix Mechanism Options

Lock-Fix mechanism was especially designed for the quick and flexible installation process of Smart Slide Drawer Systems. “Pin-Fix System” was particularly developed for industrial furniture producers to ensure ease and safety during installation.

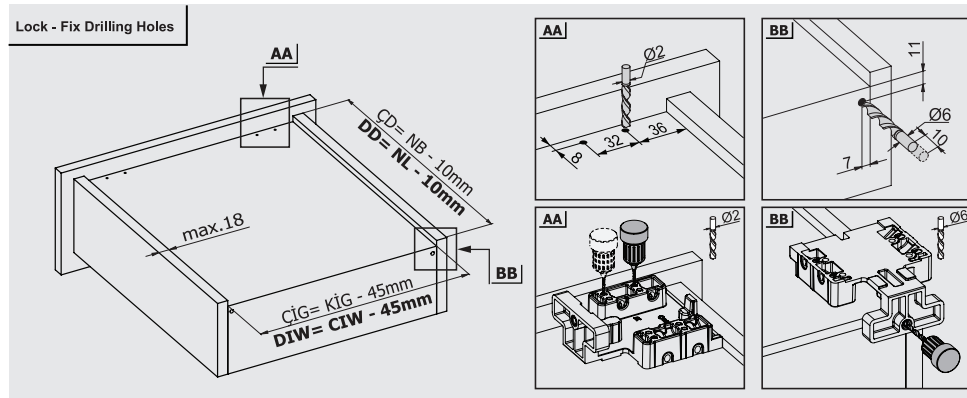

With wide drawer size alternatives within a range of 250 mm to 600 mm, different requirements can be met, which ensures different solutions during furniture production. The possibility to lock as tight as desired ensures safety during drawer utilization.
